WORK EXPERIENCE

Web Developer
Purple Zone Pvt. Ltd.

03/2024 - Present   *Pune*

Achievements

- Designed, developed, and maintained a scalable task management portal (DAMN) using the MERN stack, incorporating responsive and interactive UI/UX features to enhance user engagement and performance.
- Worked with cross-functional teams to integrate features, enhance functionality, and optimize application performance, improving efficiency and user experience while managing project deadlines.
- Managed Git repositories, overseeing branch creation, conducting code reviews, and applying version control strategies to optimize development workflows and ensure seamless team collaboration and code quality.
- Designed and developed RESTful APIs for complex business logic, integrated third-party APIs, and implemented caching to enhance scalability and performance.

Web Development Intern
PrebBytes Pvt. Ltd.

10/2022 - 04/2023

Achievements

- Gained hands-on experience in web development fundamentals, including HTML, CSS, JavaScript, and foundational backend technologies.
- Gained hands-on experience with project management methodologies, including Agile and Scrum, to ensure effective team collaboration and project delivery.
- Contributed to the development of a Student Portal, implementing features for student registration, profile management, and academic record tracking.
- Developed and implemented a library management system, streamlining book cataloging, user registration, and borrowing records using core web technologies.

EDUCATION

Bachelor's Degree in Computer Science
Shivaji University,Kolhapur

2023

Higher Secondary Certificate
M.R.S.V & Jr. College, Phaltan

2019

SKILLS

Node.js React.js Next.js Express.js TypeScript Go Redux Tailwind CSS Shadcn MaterialUI MySQL MongoDB Postgresql HTML CSS JavaScript

PROJECTS

Gym Management System
- Developed a feature-rich Gym Management System using **Next.js** for a seamless frontend experience and **Go** for a powerful backend.
- Designed a modern, responsive UI with **Tailwind CSS** and **Shadcn** , ensuring an intuitive user experience across devices.
- Implemented **PostgreSQL** for scalable data management, efficiently handling user information, memberships, and scheduling data.
- **Live Link** : StayFit.

Pet Care Shop
- Built a **Pet Care Shop** using **Next.js (Server Actions)** for backend operations and **Tailwind CSS** for a fully responsive design, ensuring optimal user experience across devices.
- Integrated **Shadcn** for custom UI components and **MongoDB** for efficient management of products, customer data, and order records.
- Features include a product catalog, user **authentication**, and real-time inventory updates for seamless user interactions and system efficiency.
- **Live Link** : Pet Care Shop.

Fast Food Recipe
- Developed a **Fast Food Recipe** web app using **React** and **Material UI**, creating a modern and fully responsive UI for an enhanced user experience.
- Utilized **React components** and **state management** techniques to ensure smooth user interactions, high performance, and seamless application flow.
- Emphasized a **mobile-first design** approach to ensure a responsive layout across all devices and screen sizes.
- **Live Link** : Fast Food Recipe.
